Technology Acceptable Use Policy

Family Name: _____

Queen of the Rosary (hereafter referred to as QR) is committed to the effective use of technology to enhance both the quality of student learning and the staff efficiency of school operations. It also recognizes that safeguards must be established to ensure the protection of our students and staff, and the school's investment in hardware and software.

The provisions of this policy are subordinate to the Chicago Archdiocesan guidelines and local, state, and federal law. Queen of the Rosary's computers and other technology resources (iPads, laptops, cameras, Chromebooks, etc.) are to be used in a responsible, ethical, and legal manner in accordance with the mission and rules of Queen of the Rosary School. QR has the duty to investigate any suspected violations of this policy.

1. Access to the Internet must be related to a student's class work responsibilities, or for the purpose of education or research, and be consistent with all of the educational objectives of the Archdiocese of Chicago and QR.
2. The use of the Internet is a privilege, not a right. Inappropriate use may result in a cancellation of those privileges, disciplinary action (up to and including expulsion) and/or appropriate legal action. Whether the use is considered inappropriate or violates this policy is a matter within the discretion of the Principal. The Principal's decision is final.
3. Some examples of unacceptable use include, but are not limited to:

 - c. Invading the privacy of individuals;
 - d. Using another user's password or account. Computer accounts and passwords are confidential and must remain so. Do not use another individual's account and confidential password.

 - f. Using inappropriate language;
 - g. Use of any proxy sites to access sites that are restricted by the normal course of the network;
 - h. QR will lock down the network using filters and/or additional software (in compliance with the *Children's Internet Protection Act*) to keep most inappropriate information away from users, but cannot guarantee this in all situations, particularly given the inappropriate use of proxy sites;
 - i. Damaging computers, computer systems, files, programs, or networks;
